BE IT HEREBY ORDAINED BY THE CITY COUNCIL OF THE CITY OF BARDSTOWN:

CHAPTER I: INTRODUCTION

A. PURPOSE

The purpose of the Sign Ordinance is: to encourage the effective use of signs as a means of communications in the City of Bardstown; to maintain and enhance the aesthetic environment and the City's ability to attract sources of economic development and growth; to improve pedestrian and traffic safety; to minimize the possible adverse effect of signs on nearby public and private property; and to enable the fair and consistent enforcement of these Sign Regulations.

B. APPLICABILITY

A sign may be erected, placed, established, painted, created or maintained in the City only in conformance with the standards, procedures, exemptions and other requirements of this Ordinance.

The effect of this Ordinance as more specifically set forth herein is:

1. To establish a permit system to allow a variety of types of signs in commercial and industrial areas and a limited variety of signs in residential areas, subject to the standards and the permit procedures of the Ordinance;
2. To allow certain signs that are small, unobtrusive and incidental to the principle use of the respective lots on which they are located, subject to the substantive requirements of this Ordinance, without the requirements of a permit;
3. To provide for small, temporary signs without commercial messages in limited circumstances in the public right-of-way;
4. To prohibit all signs not expressly permitted by this Ordinance;
5. To establish a reasonable fee; and
6. To provide for the enforcement of the provisions of this Ordinance.

The number, size, height, appearance and location of signs in the Bardstown Historic District will be controlled by the Historic Review Board through their regular review process and not through this Ordinance.

This requirement shall not apply where, under the provisions of this Ordinance, an existing, conforming sign may be altered to advertise a new business or product, and there is evidence that a new business will be in operation on the premises within thirty (30) days. If the owner fails to comply with the written notice to remove the sign, the Administrator is hereby authorized to cause removal of the sign. G. CONSTRUCTION AND MAINTENANCE STANDARDS

All signs shall be constructed and maintained in compliance with the appropriate detailed provisions of the Kentucky Building Code, the National Electric Code and other provisions of the Code of Ordinances of the City of Bardstown.

H. COMPUTATIONS

The following principles shall control the computations of sign area and sign height:

1. Computation of Area of Individual Signs. The area of a sign face (which is also the sign area of a wall sign or other sign with only one face), shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework, bracing or decorative fence or wall when such fence or wall is clearly incidental to the display itself.
2. Computation of Area of Multifaced Sign. The sign area for a sign with more than one face shall be computed by adding together the area of all sign faces visible from any one point. When two identical sign faces are placed back-to-back so that both faces cannot be viewed from any point at the same time, and when such sign faces are part of the same sign structure and are not more than forty-two (42) inches apart, the sign area shall be computed by the measurement of one of the faces.
3. Computation of Height. The height of a sign shall be computed as the distance from the base of the sign at normal grade to the top of the highest attached component of the sign. Normal grade shall be construed to be the lower of: (1) existing grade prior to construction, or (2) the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of locating the sign. In cases in which the normal grade cannot reasonably be determined, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to elevation of the nearest point of the crown of a public street or the grade of the land at the principal entrance to the principal structure on the lot, whichever is lower. When a sign is within the building setback, the calculation for the sign may use either the base elevation or the elevation of the roadway.

A. VIOLATIONS

Any of the following shall be a violation of this Ordinance and shall be subject to the enforcement remedies and penalties provided by this Ordinance and by state law:

1. To install, create, erect, or maintain any sign in a way that is inconsistent with any plan or permit governing such sign or the lot on which the sign is located.
2. To install, create, erect or maintain any sign requiring a permit without such a permit.
3. To fail to remove any sign that is installed, created, erected, or maintained in violation of this Ordinance, or for which the sign permit has lapsed.

Each day of a continued violation shall be considered a separate violation when applying the penalty portions of this Ordinance.

B. ENFORCEMENT

Any violation or attempted violation of this Ordinance or of any condition or requirement adopted pursuant hereto may be restrained, corrected, or abated, as the case may be, by injunction or other appropriate proceedings pursuant to state law. The remedies of the City shall include, but are not limited to the following.

1. Issuing a stop-work order for any and all work on any signs on the same lot;
2. Seeking an injunction or other order of restraint or abatement that requires the removal of the sign(s) or the correction of the non-conformity.
3. In the case of a sign that poses an immediate danger to the public health or safety, taking such measures as are available to the City under the applicable building codes or other ordinances.

All the remedies provided herein shall be cumulative. To the extent that state law may limit the availability of a particular remedy set forth herein for a certain violation or a part hereof, the remedy shall remain available for other violations or other parts of the same violation.

C. PENALTIES

Violation of the provisions of the Ordinance or failure to comply with any of its requirements shall constitute a misdemeanor. Any person who violates this Ordinance or fails to comply with any of its requirements shall upon conviction thereof be fined not less than fifty dollars (\$50.00) nor more than five hundred dollars (\$500.00). Each day such violation continues shall be considered a separate offense.

The owner and also, if applicable, the tenant of any building, structure, premises or part thereof, who commits, participates in, or maintains the violation may be found guilty of a separate offense and suffer the penalties herein provided.

Nothing herein contained shall prevent the City from taking such other lawful action as is necessary to prevent or remedy any violation.

In their interpretation and application, the provisions of this Ordinance shall be held to be minimum requirements adopted for the promotion of the public health, safety and general welfare. Wherever the requirements of this Ordinance are at variance with the Zoning Ordinance or with the requirements of any other City Ordinance or State law, the highest or most restrictive standard shall apply.

This Ordinance shall become effective on January 1, 1994,
after its passage, approval, and publication as required by law.
